Gary,

Due to the importance of the remedial alternative discussion contained in that final USACE report, we asked that Parsons, a member of the Harris County Technical Team, review the report and comment on the aspects of the report that provide technical support for the full removal alternative with the use of BMP's. Parsons' report review comments are attached.

While we understand there is no official EPA comment period for the final USACE Remedial Alternatives Evaluation Report, any consideration that you can give to the review comments is greatly appreciated.

Thanks and I hope you have an enjoyable Labor Day weekend!

Bob
